SUMMER 2018

Responsive Design Coming to Online Banking

Online Banking will get a little easier to use on smaller screens and tablets when a new responsive design debuts July 25.

Along with a slightly refreshed look, the site will have the ability to resize and rearrange items on a page so members can see them clearly on any size of screen.

A new feature that allows members to add accounts from other financial institutions will also become available with the launch. Existing features and navigation will remain in place.

RATE WATCH

CFCU's 30-Year Fixed-Rate Mortgage vs. Competition

CFCU offers competitive rates on 30-year fixed-rate mortgages.

See how we compare:¹

INSTITUTION	RATE ²	POINTS	APR ³
Chevron Federal Credit Union	4.500%	0	4.544%
US Bank	5.000%	0	5.046%
Quicken Home Loans	5.250%	0	5.310%

We come through for our members by consistently offering highly competitive rates! For more information, please stop by your local CFCU branch or call us at 510-627-5120 or 888-334-5120.

¹Rates are for comparison purposes only. Your actual rate, points, and/or fees may be different.
²Rate valid as of 6/11/18. Rates are subject to change at any time. Example: Based on a \$300,000 purchase price with 20% down (\$240,000 loan amount) and a rate of 4.500% (4.544% APR), estimated payment would be \$1,216.04 per month. Payment does not include taxes and insurance. Other restrictions may apply.
³APR is the Annual Percentage Rate. Source: Informa PLC

Common Fraud Terms Explained

To stay ahead of criminals, it may help to brush up on these commonly used terms relating to fraud, scams, and cybercrime.

Malware — Malicious programs designed to intentionally damage or disable computers or systems. Examples are computer viruses and spyware.

Phishing — A scam that uses an authentic-looking but fraudulent email to trick you into giving out sensitive personal and/or financial information in response, or downloading malicious programs.

Ransomware — A type of malicious program which encrypts the infected system, often with the intent of receiving a ransom in return for "unlocking" it.

Skimming — Using a small electronic device called a skimmer to swipe and store victim's credit card numbers.

Smishing — The mobile version of phishing in which a text message (SMS message) contains a link that causes malware to be installed on the phone if clicked, or attempts to have the recipient enter sensitive information.

Common Fraud Terms Explained

(continued from front)

Spear Phishing — Phishing emails that look as if they came from someone you know, like Phishing but targeted in nature.

Spoofing — Using technology to make a fraudulent communication look as if it comes from a legitimate source. For example, getting Caller ID to show a different number or making an email look as if it was sent by someone else.

Vishing — A caller attempting to gather sensitive information over a phone call, often while impersonating a legitimate entity.
